Dear Mrs Nouali,

Thank you for your letter and your project proposal which we found a very good idea and project. However Hbf will not be able to support your proposal as we have defined priorities and migration, despite it is a human rights issue, is not among them. Moreover, we don't support technological projects.

We hope you will understand the reasons why we cannot support your project. We wish you to be successful in raising the needed fund and in the project development.

Best regards,

Patricia Jiménez

Dear Mrs. Jimenez,

I hope this message finds you well.

I have the honor to propose our project to the Heinrich Boell Foundation to help us help NGOs make savings on information technology resources, to collaborate electronically and to hold Voice over IP conferences via the internet. The name of the project is "Digital Unity".

We are sending you attach a letter that outlines the purpose of the project and our mission statement. We will supply more detailed information if the Heinrich Boell Foundation decides to support us. The delivery for this project is currently set to 31 March 2008.

I hope that you will enjoy reading the letter, and please do not hesitate to contact me, should you need further details.

I thank you greatly for your time and consideration,

Kindly yours,

Naima Mouali
