His Excellency Prime Minister Benjamin Netanyahu
Prime Minister's Office
3 Kaplan St. Wokinya
Jerusalem

December 14, 2017.

Dear Prime Minister Netanyahu,

Happy Hanukkah. I hope my letter finds you well.

I have the honor to share with you three documents:

One is a letter concerning the memorial tourism development in honor of the Holocaust victims. We would like to research with all the universities in the world. It is a request for donations for buying a mansion in Antwerp, in which we will direct the "From Housarine to Panama Papers" research project, the Diamond Life Tower, and the Center for the Moroccan International Alliances (CMIA).

The second document is entitled "Is there Room For Israel in Jerusalem?" and concerns the application of our research project on the Lehman Brothers bankruptcy.

The third document is entitled "The Jaffe-Configuration Explained", and it reveals similarities between the exports of citrus fruits from Jaffa and the exports of strawberries from Morocco.

To close this letter, may I suggest, dear Prime Minister Netanyahu, to name the whole of your country New Jerusalem instead of Israel, and to call the old Jerusalem, "Jerusalem City"? I hope with this the conflict will end.

Yours Sincerely,

Noime Harki
